

HEALTH CARE SPANISH

Health Care Spanish Newsletter

November 16, 2015

Learning on the Go!

The goal of this newsletter is to provide you with enough information to be useful, but not more than can be learned within the busy schedule of a health care worker. You'll find anatomy charts, additional vocabulary, occasional feedback from subscribers, and more! Feel free to read them now and save them for later use such as with a patient or as a study guide for coursework.

Help Others by Providing Feedback

Part of Health Care Spanish's mission is to create a useful resource for health care workers. However, there is only so much that can be done without feedback from you. Email questions or suggestions to healthcarespanish@yahoo.com

Spread the Word

Do you know other health care workers or students who need to pick up a little Español? If you find our endeavor useful, we would be grateful if you share it with others.

In This Issue

- Terms and chart related to Bradycardia

Various EKG Results

Bradycardia or Bradyarrhythmia

Bradicardia o Bradiarritmia

Heart beat between 40 and 60 BPM is called mild bradyarrhythmia

Latido cardíaco entre el 40 y 60 de BPM se llama bradiarritmia leve

Heart beat between 20 and 40 BPM is called moderate bradyarrhythmia

Latido cardíaco entre 20 y 40 BPM se llama bradiarritmia moderada

Heart beat between 20 and 40 BPM is called severe bradyarrhythmia

Latido cardíaco entre 20 y 40 BPM se llama bradiarritmia severa

Contribute

We always welcome input from our readers. If there's a particular anatomy chart or topic you think is important, let's work together to share it with the healthcare community.

Special Thanks to Cristina Lagarón and Evilin Maza for contributions to this newsletter!
